“ My Dad LOVED Cardinal Baseball! I would just sit and watch him watch the games. He saw the game from a very entertaining standpoint. Much like that of a child by being gitty with excitement on the good plays, and somber-quiet on the bad plays.

My Dad taught me to fish! The same gittiness would overcome him while catching fish. He would sit in front of the 14' john boat with the paddle. He would do what we called "skull" the boat with one hand and fish with the other. I thought he was amazing the way he could do that.

Me and my Mother surprised Dad in 1976 by buying him a boat with a electric foot-controlled trolling motor and a 7.5 HP engine. A perfect boat for fishing in Lake Charles and all the oxbow lakes up and down the Black River. He deserved that boat and motor more than anyone will ever know.

Thanks Dad, for all the memories....Roger
